DOCTORS IN CONCLAVE

(Continued from page three.)
a paper should contain statements con-
demning condensed milk. Such a state-
ment was made last year and to have
it made public again will increase the
dread the poorer classes have for this
preparation.

Mr. Pinkham spoke of the efforts of
the Board of Health to control the
dairies and its failure.

DR. HERBERT'S PAPER.

Dr. Geo. Herbert read a paper on
"Liver Fluke in Man" which was of
special interest as there have been but
five cases recorded.

Dr. Humphris informed his hearers
that "pressure is the cause of all
pain," and then proceeded to tell why.
He showed in words how the removal
of the pressure in nearly every instance
removed the pain.

Dr. Waterhouse asked for informa-
tion relative to the "central office,"
describing the painful sensation in a
spot where the toe should be, had it
not been amputated. He remarked that
Christian Scientists have control over
the brain and by that the patients are
made to feel free from pain.

Dr. Morton said the paper was the
most interesting he had heard. It is,
however, open to discussion. The best
definition he had ever heard came from
a physician 85 years of age, Dr. Mc-
Grew. While sitting with him the other
day Dr. Morton said to him: "Well,
Doctor, what is pain?" And the old
gentleman answered, "Pain is hell."

Without pain no diagnosis could be
made; without it the patient would
not call upon you. As to Christian
Science it is simply a matter of sugges-
tion. Give a man calomel and tell
him it is morphia and you will notice
that he begins to improve immediately.

Dr. Wood said he had been in doubt
for a year as to what line of thought
Dr. Humphris had been following. The
reading of the paper enlightened him
and he was satisfied that he is ad-
opting for their belief that all pain is
due to pressure.

Dr. Humphris took up the questions
seriatim and answered each so fully that
when he had finished he left nothing
to be desired. At 11:40 p. m. the meet-
ing adjourned and today the physicians
will put in their time at the hospital
and at Quarantine Island.

JAPANESE SHIPPING COMPANIES.

Shipping companies are profitable in
Japan. For the half year ending
March 31 last the Nippon Yusen Kaisha
wrote off \$401,500 for depreciation, \$169,-
600 for insurance, \$223,000 for repairs,
carried \$56,000 to reserve, paid \$36,000
for directors and auditors' fees, gave
the managing director a bonus of \$30,-
000, gave employees generally \$200,000 in
bonuses, paid \$325,000 in 15 per cent.
dividends, and left \$492,000 at credit of
profit and loss account.

There are 5000 bags of K. S. M. sugar
on Kauai awaiting shipment.

COMMERCIAL NEWS

By Daniel Logan.

Coast mining stocks are making the only speculative stir in Honolulu. They form the chief topic on the street. Some of the newly developing mines are already controlled here and at least one order was cabled yesterday to secure the control of a new claim that has been prospected. It is this touch of gold fever to which a prevailing weakness in sugar stocks, here as well as in San Francisco, is attributed. The local stock and bond situation is one of lack of buyers. There is nothing of a disquieting nature in the sugar market, as this has slightly improved. Centrifugals, 96 degrees test, have held at \$76.325 a ton for the whole week, while Beets, 88 analysis, have shaded up 20 cents to \$76.40 a ton.

Following are the sales on the local exchange for the week: Olan (\$20), 15, (Continued on Page 11.)

60 at 2.875; McBryde (\$20), 50, 20 at 5; Onomea (\$20), 60 at 38; Ookala (\$20), 25 at 8, 215, 75 at 8.25; Hawaiian Sugar (\$20), 15 at 34.875; Ewa (\$20), 70, 100 at 25, 50 at 24.875; Kahuku (\$20), 70 at 25; Waialua (\$100), 30 at 67.50, 50 at 68; Hon. Brewing & Mtg. (\$20), 50 at 27.25; Hilo R. R. 6's, \$3000 at 50; Waialua 5's, \$1000 at 99; McBryde 6's, \$1000 at 98.

Dividends announced on the 15th were the following: Hawaiian Sugar Co., 1 1/2 per cent; Oahu Sugar Co., 1 1/2 per cent; O. R. & L. Co., 1 1/2 per cent; Pepeekeo, 1 per cent; Mut. Tel. Co. (quar.), 1 1/2 per cent.

REAL ESTATE.

Morgan's real estate department reports its closing the sale of the Isenberg chateau on Tantalus to August Dreier yesterday afternoon on terms as yet private.

John A. McCandless bought at auction from the Department of Public Works a piece of Government land containing 3.73 acres at Luakaha for \$2800. It is a pleasant site abutting on the Fall road and the owner will erect a residence to cost about \$10,000 thereon.

Four lots at Kaimuki were offered at auction by Dr. W. H. Mays, but only two of them were sold. I. N. Cox bought one of 12,187 square feet for \$210, and O. H. Swezey another of 20,237 square feet for \$300. Deeds have been recorded by the trustees of Gear, Lansing & Co., one to David Haugs of two lots in Wainalea tract for \$1050, and another to Mrs. Sophie Overed of one lot in Kaimuki tract for \$550. These represent the original prices of lots in that section.

Other deeds recorded are from Bank of Hawaii to Jas. Steward of four lots and buildings at Alapai lane and King street for \$2875, and from Helen S. Lovekin and husband (A. C.) to Caroline D. C. Westervelt of three lots in College Hills tract for \$2550.

The foreclosure sale of Palama property of Mille Morris has been declared off by the Hawaiian Trust Co., mortgagee.

GENERAL REVIEW.

At a conference between E. D. Tenney, president, and W. W. Goodale, manager, of Waialua Agricultural Co., the past week, it was decided to lay out a central piece of ten acres of land, now covered with sugar cane, in lots approximately 50 by 100 feet as independent home sites for laborers on the plantation. Money will be advanced to the laborers for building their cottages. This liberal action on the part of the company is in harmony with the policy of the Territorial Government, approved by President Roosevelt, looking toward a labor supply domiciled upon the land.

A decision of the Supreme Court holds that the Registrar of Conveyances must record a deed stamped in accordance with the rate the law fixes for the "expressed" consideration in the deed, when it does not appear that the actual consideration is different.

It has been decided by the Supreme Court that the Seattle Brewing Co., which has about \$15,000 invested in its Honolulu establishment, is not liable for the annual license fee to be paid by a corporation "which does not invest and use its capital in this Territory." Treasurer Campbell has accordingly refunded to the company \$750 paid under protest, being the amount of two annual license fees and delinquency penalties.

Charles K. Noley intends starting a tobacco plantation in Hamakua district, where Federal experiments have proved that the finest Sumatra leaf may be grown. Mr. Noley believes that even the native Hawaiian tobacco, with scientific cultivation and curing, would become a fine product.

E. J. Lord is the lowest bidder at \$19,300 for constructing the Nuanu street sewer extension and the Kalihi system of sewers.

Capt. Slattery, U. S. A. engineer, has received orders from Washington to abandon the plan of a temporary beacon on Makapuu Point and to rush plans for the permanent light there. These plans are about finished and will be sent to Washington forthwith.

Everything is favorable for making the next show of the Honolulu Poultry Association twice the proportions of the initial event last year.

A new and quite up-to-date refrigerator plant has been installed by the Metropolitan Meat Co.

Geo. P. Thelen, leaving for the mainland permanently, has sold his seat on the Stock Exchange to his late partner, William Williamson, for \$5000, the price at which he bought it some months ago.

Taxes collected in the first taxation division, being the Island of Oahu, from Jan. 1 to Nov. 17, inclusive, amount to \$907,077.52. Of this amount \$411,561.78 was collected by June 30.

Voluntary bankruptcies entered the past week are those of Fred. Wikander of Waipahu, builder and carpenter, with liabilities of \$1592.95 and assets of \$154, and of Edzel Markle, motorman, with liabilities of \$737.46 and assets of \$29.90.

Ocean steam arrivals for the week have been the liner America Maru from the Orient, the transport Logan from San Francisco, the liner Miowera from the Colonies, the liner Hongkong Maru from San Francisco, the tramp Shibata Maru from Kobe and the liner Moana from Vancouver. Departures have been the America Maru for San Francisco, the liner Alameda for San Francisco, the Logan for Guam and Manila, the tramp Chiusa Maru for Yokohama, the Miowera for Vancouver, the freighter Nevada for San Francisco via Honolulu and Hilo, the Hongkong Maru for the Orient and the Moana for the Colonies.

MEDICOS ATTEND CLINIC AND VISIT QUARANTINE

Medical practitioners of Honolulu patient could hear the sound but had no sensation of pain whatever.

The patients showed no signs of shock after the operation, and had none of the symptoms of nausea which generally follow an operation where the anesthetic is administered by inhalation.

This was the first clinical demonstration of the use of spinal anesthesia before the medical profession of Honolulu, although Dr. Morton has operated on two or three private cases.

An excellent collation was served immediately after the operation by Superintendent Eckardt of the hospital.

AT QUARANTINE ISLAND.

Following the clinic in the forenoon the members of the medical association were taken to Quarantine Island in the quarantine launch as the guests of Dr. Cofer, in charge of the Marine Hospital Service here, Dr. Ramus, Dr. James and Dr. Sinclair of the Marine Hospital staff. After looking over the new wharf and having the patent clothing disinfecting machinery explained by Dr. Cofer, the guests walked across the long runway to the island where the executive building was inspected and Dr. Sinclair took a photograph of the group.

In the mess hall the guests were entertained at luncheon. The tables were arranged in the form of a T. Dr. Wayson, president of the association, occupied the toastmaster's chair, and at his right was Dr. Morton. A delicious cold collation, prepared by Mrs. Mabel Walker, was relished, the menu comprising nut-potato salad, beans, sand-

**Falling Hair**

Prevented by Warm Shampoos of CUTICURA SOAP, followed by light dressings of CUTICURA, purest of emollient Skin Cures. This treatment at once stops falling hair, clears the scalp of crusts, scales, and dandruff, soothes irritated, itching surfaces, stimulates the hair follicles, supplies the roots with energy and nourishment, and makes the hair grow on a clean, wholesome scalp, when all else fails.

Complete External and Internal Treatment for Every Humour.

Consisting of CUTICURA SOAP to cleanse the skin of crusts and scales and soften the thickened cuticle, CUTICURA Ointment, to actively slay itching, irritation, and inflammation, and soothe and heal, and CUTICURA RESOLVENT, to cool and cleanse the blood. A STRONG SET is never sufficient to cure the worst humours, when all other remedies fail. Sold throughout the world. And Beware! R. TOWNS & CO., Sydney, N. S. W., So. African Depot: LEXSON LTD., Cape Town, Natal, Port Elizabeth. "All about the Skin, Scalp, and Hair," post free. Do not fail to get this. Through U. S. A.

wiches and spiced ham, with cool lager to drink the healths of the visiting guest of honor and about everybody else.

Dr. Whyson was at his best and had a fund of stories to relate as he introduced the various speakers. It was a jolly luncheon party. Fun and wit intermingled with serious addresses, but the medics were out for a good time and it was no occasion for seriousness, as most of the addresses indicated. Of course, all the speeches flavored of the profession and some good stories were told. Some were missionary tales and others savored of the operating room. Dr. Morton told of some peculiar and wonderful anatomical operations which demonstrated his all-round ability in medical and surgical science.

During the progress of good feeling a toast was proposed to Dr. McGrew, the veteran physician who is now confined in the Sanitarium recovering from an operation. The toast met with an enthusiastic response which attested to the "Father of Annexation's" popularity among his craft.

Dr. Wayson paid a warm tribute to Dr. Morton. He spoke of his having become acquainted with him in San Francisco about two years since, and of his enjoyment of being privileged to watch him perform some interesting operations.

He felt proud of having been the agent through whom Dr. Morton was invited to attend the present convention of the medical association of Hawaii, and he felt certain that the association was proud to have him as their guest. To have so eminent a surgeon as Dr. Morton preside at a clinic which all had witnessed in the forenoon was a privilege.

Dr. Judd, who came in for speech-making at the tail-end of the proceedings through a plot to keep some of the best speechmaking for the closing moments, told of his having seen operations performed in New York with cocaine administered into the spine, but he confessed he did not approve of it until he saw operations performed by Dr. Morton. Now he believed thoroughly in it. He said, too, that it was a privilege to have Dr. Morton in their midst.

Dr. James was called upon to respond to the toast of "The President" because of his having been a "Rough Rider" during the Spanish War. Dr. James gave a graphic description of the wonderful power which Col. Roosevelt exercised over his men. He said he never heard a man in the regiment say a word against the colonel. This was remarkable in so large an organization as a regiment. He remembered when Mr. Roosevelt became commander of the regiment through the promotion of General Wood, at which time he did not have the insinuation of his rank to denote his promotion. One of the soldiers on that occasion fashioned the colonel's insignia out of some metal and gave it to the commander.

Dr. Armitage responded wittily on several occasions and received a new title, or rather new titles, those of the Duke of Armitage and the Duke of Durham. Dr. Armitage was equal to the occasion with his usual witty comebacks. Dr. Hoffmann was at his best although he came late and much of the refreshment had already disappeared. Dr. Cooper, Dr. Hodgins, Dr. McDonald, Dr. Wood, Dr. Rogers, Dr. Emerson, Dr. Humphris, Dr. Ramus, Dr. Walters, Dr. McGottigan, Dr. Pratt, Dr. Hayes, Surgeon Smith, U. S. N.,

and in fact nearly everybody present was called upon for an address.

Following the luncheon the guests were conducted over the island and an inspection was made of all the buildings. The increased height of the island through an impouring of dredged matter from the harbor and channel was commented on. The quarantine station is now almost complete, and with the addition of lawns, which will probably be quite green in two years, the Honolulu station will be one of the most attractive and up-to-date in the service.

On leaving the island most of the guests were put aboard the cable steamer Restorer where they were the guests of Dr. Sheldon, surgeon of the vessel. An enjoyable hour was spent aboard that hospitable ship.

This afternoon the reading of papers will be continued at the University Club and this evening the banquet will be spread at the club.

Drs. Judd, Hodgins, Cofer and Cooper were responsible for yesterday's enjoyment, they being on the committee on arrangements.

JAPANESE FEELING ON SCHOOL ISSUE

TOKIO, October 29.—There are no signs whatever of a growth of ill feeling against Americans in general since the action of the Washington government in the San Francisco public school incident has become known. The public is growing remarkably calm. The Japanese government stands on Article 1, Clause 3, of the treaty of 1894. The ultra chauvinism of the San Francisco school authorities is deemed to be a flagrant violation of the treaty, but the consensus of opinion, while fully sympathizing with the delicate situation confronting the government at Washington, confidently expects President Roosevelt to abide by the principle of justice. Any apprehension of the boycotting of American goods is generally regarded as absurd. The United States is the best customer of the Japanese, and it is well known that to provoke the Americans would be suicidal. It is feared that emissaries of a certain power are active in starting a movement against the Japanese by exaggerating the situation. Much indignation was naturally felt here against the San Francisco school authorities.

FROM THE ANTILLES.

CHAMBERLAIN'S COUGH REMEDY BENEFITS A CITY COUNCIL-MAN AT KINGSTON, JAMAICA.

Mr. W. O'Reilly Fogarty, who is a member of the City Council at Kingston, Jamaica, West Indies, writes as follows: "One bottle of Chamberlain's Cough Remedy had good effect on a cough that was giving me trouble and I think I should have been more quickly relieved if I had continued the remedy. That it was beneficial and quick in relieving me there is no doubt and it is my intention to obtain another bottle." For sale by Benson, Smith & Co., Ltd., agents for Hawaii.
